Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

Claim 1: (currently amended) A lithographic sheet product consisting essentially of :

a ~~metal~~ non-anodized aluminum alloy substrate having a roughened surface with an Ra roughness of less than about 40 micro-inches; and at least one pretreatment layer positioned on a surface of said roughened ~~surface~~-substrate, said layer comprising a polymer selected from the group consisting of polymers of acrylic acid, polymers of metacrylic acid, organophosphorous polymers, and copolymers of organophosphorous compounds and acrylic acid or metacrylic acid and about 4 to about 50 wt. % dopant particles ~~selected from the group consisting of alumina, silica, titanium dioxide, black dye and black pigment, consisting of silica having a particle size of .02-5 microns,~~ wherein said pretreatment layer is adapted to adhere a printing composition to said sheet product.

Claims 2-6: (canceled)

Claim 7: (previously presented) The lithographic sheet product of Claim 1 wherein said polymer comprises a copolymer of acrylic acid and vinyl phosphonic acid.

Claims 8-27: (canceled)
